

Delivery Station Selection

Once you submit your initial order, eBudde will ask you about delivery. The process will be determined by the service unit that you are in, so please refer to the chart on page 2 to determine the process for your troop.

Multiple Options

Troops in the Tulsa Metro area will see multiple options and should select the delivery station that matches the size of their troop order.

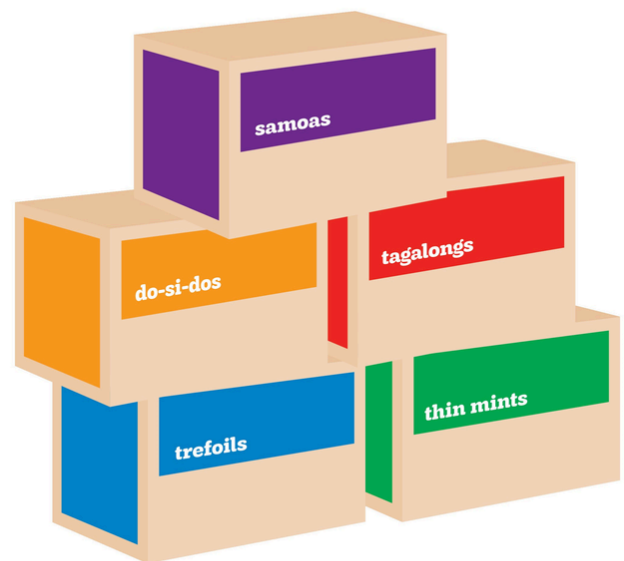

- 1-60 cases should select “Tulsa - Small Orders” - These troops will pick up their cookies at the Council cupboard location before January 25, instead of at the warehouse.
- 61-250 cases should select “Warehouse - Saturday” - These troops will pick up their cookies on Saturday, January 25 at the warehouse as they drive through the pickup line.
- 251-399 cases should select “Warehouse - Friday” - These troops will pick up their cookies on Friday, January 24 at the warehouse. Troops will pull their vehicles into the bay doors one at a time. This works best with moving trucks and flatbed trailers, etc. so that pre-counted pallets can be loaded into the vehicle by a forklift.
- 400+ cases - Troops will have their own delivery station and cookies will be delivered to your preferred site beginning January 20.

Automatic

Cookies for all the troops in your service unit will be delivered to one location. Your troop will automatically be assigned to that location so there are no additional steps for you to complete.

Two Options

Please notice that there are two options for your service unit and select the option that is best for your troop.

Service Unit Name	Delivery Station Type
Aphchi	Automatic
Boggy Creek	Automatic

Spartan Pass	Multiple Options
Tallgrass	Automatic
Three Feathers	Multiple Options
Tiak Starr	Automatic
Tulledega	Automatic
Whispering Oaks	Multiple Options
Will Rogers	Multiple Options

Tulsa Metro FAQs

Q - Why are you making changes to cookie distribution?

A - We are making changes to our warehouse process to reduce the impact of inclement weather.

Q - When will we know what time our troop will pick-up our cookies?

A - On Wednesday, January 15 at 7:00 p.m. the available time slots will be open for all delivery stations. You will then select a time slot using eBudde.

Q - Do all the troops in our service unit have to pick-up at the same time?

A - No, each troop finds the time that works best for them.

Q - What if our troop can't pick-up on the day/time that is available?

A - We encourage everyone to plan ahead and do their best to make this work as we are trying a new way to coordinate delivery of about 35,000 cases to over 200 troops. We will do our best to be flexible, but ask you to do the same.

Q - If we get our cookies on January 21, can we start distributing to our girls so that they can begin making deliveries right away?

A - Troops should NOT distribute cookies to Girl Scouts or customers until Saturday, January 25.

Q - What if I pick-up for multiple troops?

A - You can group troops together and find your delivery station based on the total number of cases when added together, or keep each troop separate and select based on each one individually. To be eligible for the 400+ cases group, at least one troop must have an order 400+ cases in their IO.

400+ Cases

- If your troop falls into this category, there will be a delivery station named with your troop number.
- This has to be set up in advance, so you must email cfranklin@gseok.org with information about your troop.
 - Troop number
 - Volunteer name for delivery
 - Address for delivery
 - Phone number for delivery
 - Email address for delivery
- After orders are submitted, someone from the warehouse team will call you to schedule your troop delivery.
