

Leader's Quest: Ambassador “Echo Chamber Collapse Boss Battle”

Theme: Media Literacy, Polarization, and Civic Engagement

Ambassador Badges Integrated:

Public Policy

Truth Seeker

Digital Leadership

Boss Name: *Sir Biasbane, Warden of the Wallfeeds*

In his sleek palace of pixels, Sir Biasbane silences nuance and thrives on outrage. He keeps everyone scrolling in silos, where opinions bounce back unchanged. He wields algorithms like spells and feeds on “us vs. them” energy.

Boss Weakness: Independent research, civil discourse, and digital advocacy.

Strategy Options:

1. Pop the Bubble—Follow voices outside your comfort zone (*Truth Seeker*).
2. Track the Source—Investigate how info spreads and who benefits (*Digital Leadership*).
3. Build a Bridge—Design a way for opposing views to connect constructively (*Public Policy*).

Choose Your Role:

- The Media Mapper – Knows how to navigate the information maze with discernment and clarity.
- The Digital Diplomat – Uses platforms to create dialogue, not division.
- The Change Curator – Shares posts that inspire action—not just outrage.

Quest Log: Task

Follow and engage with a creator or perspective you disagree with. What do you notice?

Trace the journey of a viral post—Where did it start? Was it accurate? Who did it serve?

Host a group convo where people respectfully explore different views. Capture takeaways.

Design a “Balanced Feed Challenge” and invite others to curate theirs with intention.

Write a manifesto for how *you* want to show up online. Post it. Live it. Revise it.

Reflection:

- How does my online world shape how I see the real world?
- What’s the difference between disagreement and disrespect?
- How can I lead by example in digital spaces?

Victory Stamp:

A cracked wall with a vine growing through—or a feed icon glowing with new connections.
