Boss Weakness: Keen observation, collaboration, late-night courage, and wicked cool creativity.

Strategy Options:

1. Solve the Hollowshade Mystery by uncovering evidence and piecing together clues (*Detective*).
2. Draw a Graphic Scene showing your troop encountering—and defeating—Lady Vexx (*Comic Artist*).
3. Go on a Night Adventure and track how your senses change after dark (*Night Owl*).

Choose Your Role:

- The Shadow Seeker – Notices the small details that others miss. Patterns. Smudges. Secrets.
- The Lorekeeper – Chronicles your squad's journey through chilling comics, sketches, or storyboards.
- The Nocturne Girl Scout – Navigates with courage in the moonlight, learning how the world changes after dusk.

Quest Log: Task

Create a mystery scene (real or fictional) and sketch out clues, suspects, and red herrings.

Interview someone about a mystery or ghost story from your town or family history.

Visit a nighttime location (backyard, balcony,) & journal your observations. What's creepier than expected?

Design a one-page comic that shows you or your troop facing Lady Vexx. How do you outsmart her?

Make a DIY "Ghost Clue Kit" with items like a flashlight, journal, map, and codebreaker. **Bonus:** Make it waste-free!

Reflection:

- What makes me brave when things feel spooky or uncertain?
- How can creativity help me understand challenges in new ways?
- Why is it important to listen and collaborate when solving problems?

Victory Stamp:

Sketch a glowing lantern breaking the fog—or a mirror cracking as Lady Vexx's reflection disappears with a hissssss...
